

REACH Statement

The European Union (EU) Regulation (EC) 1907/2006 Registration, Evaluation, Authorization and Registration of Chemicals (REACH) Directive entered into force on June 1, 2007. REACH applies to the manufacture, placing on the market, or use of "substances of very high concern" (SVHCs) on their own, in preparations, or in articles.

To ensure that Phoenix Audio Technologies fully complies with the REACH regulations, we conducted a thorough analysis of our entire product line. Following this evaluation, Phoenix has contacted suppliers to confirm all necessary registration of in-scope substances in formulations, preparations, materials, or articles be completed by the REACH deadlines.

The REACH regulation contains a list of SVHCs (substances of very high concern), which require special treatment due to their known and identified hazards. None of the products manufactured by Phoenix contain any of these SVHCs. Phoenix Audio will continue to monitor this list to ensure that we, as well as our suppliers, are always in compliance with REACH.

Please contact the Phoenix REACH team for any additional information concerning our REACH program at: info@phnxaudio.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Jacob Marash", with a long horizontal line extending to the right.

Jacob Marash
